# Limitless designs

Clingerman Doors handcrafts every garage door to the customers specifications. We work very hard to ensure you get the very best custom wood garage door possible. Our doors have been ordered from all over the country for over 10 years, so our experience is exceptional.

Clingerman Doors will work with homeowners, builders, architects, or dealers to ensure you receive the garage door you have always wanted.

Our custom wood garage doors appear to swing, fold, or slide open. But, they are overhead doors that roll up easily into your garage with the push of a garage door opener.

- We offer Spanish cedar, African mahogany, Azek, Radiata pine, Meranti mahogany and VERSATEX
- Track, installation hardware, and torsion springs can be supplied with each order.
- Detailed computer drawings approved before each order.
- Decorative hardware available to compliment your custom wood garage door.
- Heavy-duty Liftmaster operator models available upon request to make your doors operate quietly and efficiently for the life of your door.
- Create your very own custom wood garage door!
- Real carriage house swing doors are also available!
- Matching entry doors are available!

Pictured above is a cross-section from our custom wood garage doors! This drawing breaks down the composition of our 3" thick quality custom wood garage doors.

to compliment any style

Clingerman Doors offers a unique line known as our custom AZEK or VERSATEX Collection. This collection comes in paint grade material only but gives you the appearance of wood with less maintenance.

- Custom Designs
- True Divided Lites
- Will not split, cup, rot, warp, or twist
- Perfect Wood Replacement & Low Maintenance
- Profiled Edges
- AZEK or VERSATEX material is milled exactly like our custom wood garage doors
